We exported our products to more than 30 countries with strong technical support, good quality and services.

Qixin® Smokeless Stainless Steel 201 Fire Ring Fire Pit

1.Product Introduction

We supply Qixin® smokeless stainless steel 201 fire ring fire pit .The item is conveniently portable to bring along to outdoor barbecues, camp sites, the beach, or adventures in the remote outdoors. The double stainless steel walls that heat up and release hot air from the bottom to holes along the rim. It can reduce the smoke by burning it off at the top layer, and smoke-free.

Description:

How does the smokeless stainless steel 201 fire ring fire pit work?

When its double stainless steel walls heat up, air between the walls rises to the top where it flows out of the holes along the rim. As it mixes with the smoke on the top, it causes it to reburn, thus reducing the smoke that the heat gives off.
